

UMSL CS 4220 2021 Summer Semester Assignment 4

Tasks

- Follow the directions in the attached “CreatingAnXcodeProject.pdf” file to create a single view application project.
- In `Main.storyboard`, add and constrain a `UIButton` and a `UIView`.
- Add the `UIView` as an `IBOutlet` in `ViewController.swift`.
- Connect the `UIButton` to an `IBAction` in `ViewController.swift`.
- Toggle the `UIView`’s `backgroundColor` between yellow and grey in the `IBAction` method you have created.

Submission

- Rename the folder containing your project to your SSOID.
- Zip the folder.
- Submit the assignment via Canvas.
